- Q.**
1. There is a request for a non-collusion certificate and it was not sent over with the RFP. Where can we get this? Is this a physical certification?
 2. There is a request for an addendum certification—is this an actual form or can we just acknowledge that we received and read it?
- R.** Each of the items named above – the non-collusion certificate and the addendum certification – can be executed on the bidders own form or letterhead and submitted with the proposal.
